

Paving Paths Can Finally Be Profitable Again.

The Neal 5500 Asphalt Paver

THE NEAL 5500 self-propelled asphalt paver – the super durable, reasonably priced solution to paving cart paths, utility cuts and sidewalks. With an overall operating width of 5'3" to 8'3", the Neal 5500 is ideal for navigating through wooded or landscaped areas with minimal disturbance. Where size and maneuverability would normally be a problem – in alleyways or paving utility cuts – the 5500 feels right at home. AND with a price tag that's considerably less than any comparable machine on the market, cost is recouped quickly, making the 5500 a very wise investment.

Neal 5500 Asphalt Paver Specifications

5500 ASPHALT PAVER HIGHLIGHTS

- Small, maneuverable and powerful (5' 3" - 8' 3" paving widths)
- 1,500 square inches of track on the surface
- Push tandems or load with a skid steer.
- Conveyors and augers are fully automatic or manual operation
- Smooth hydrostatic steering controls
- Greatly simplifies path and utility paving

Capacity / Dimensions

Small Paver, Big Paving Performance

The 38 HP diesel engine provides ample power for paving steep paths.

The 5500's small footprint minimizes damage to the surrounding landscape.

hopper capacity	4 tons
width open	104"
width closed	63"
length	94"
height	85"
weight	7,200 lbs
engine	38 hp

Features

Fully Automated, Fully Loaded Paver

Full featured, heavy duty screed – vibratory, crown/invert, and propane heat.

Automatic conveyors deliver asphalt fast while you keep your eye on the path ahead.

paver speed	180 fpm
screed fully extended	14" x 60" x 96"
screed crown	2"
conveyors	2, 17" wide
	manual or auto
	variable speed
vibratory screed	standard
screed heat	propane
track	hydrostatic drive
tracks:	
width and length	15" x 49"
track outside	54"

The control system is simple to operate and access while maintaining a clear view of your surroundings.

Material sensors keep asphalt delivered to the full width of the screed at all times – automatically.

Parts and Service after the sale.
